

Centerpoint Sustainability Policy

Centerpoint is devoted to conducting our operations in a sustainable and responsible manner. CenterPoint values the health and safety of our employees and contractors, the protection of the environment, and the communities we operate in. CenterPoint commits to:

- Conduct all of our operations in compliance with all provincial, federal and municipal laws;
- Strive to achieve zero health, safety, and environmental incidents;
- Ensure that workplace hazards are assessed, eliminated where possible, and mitigated and monitored to protect worker health;
- Conduct operations in a sound environmental manner to prevent pollution and minimize effects on the surrounding environment;
- Promote the efficient use of energy, materials, and water resources in all aspects of our business;
- Develop a meaningful and respectful dialogue with all stakeholders;
- Support local communities through community development programs and locally sourcing of goods, services, and employees;
- Use best technologies to improve the safe, efficient use of resources and materials;
- Continually evaluate and look at improving our health, safety, and environmental performance.
